REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The prior art taken either singularly or in combination fails to anticipate or fairly suggest the limitations of the independent claim(s), in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper. The prior art fails to teach a combination of all the claimed features as presented in claim(s) 19-23, wherein the claimed method comprises, providing a base member having a radius b corresponding to a minor axis of an elliptical shape; and cutting a base member along a plane that forms an angle k with the minor axis of the desired elliptical shape, wherein the angle k is given by the formula $\cosine(k) = b/a$, as claimed. The totality of the claimed invention is relied upon for reaching to the conclusion of allowability.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

2. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. References listed on the PTO-892 accompanying this office were cited in the parent application.
